

# Bridging the Training Gap

## How Staff Profiles Drive Measurable Outcomes

Hi Rasmus®

Insights from a double-blind controlled study using  
Hi Rasmus Staff Profiles

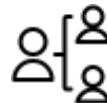

What if better staff  
training could  
directly improve  
learner outcomes?

572 Clients

22 Organizations

2 Groups: Control vs.  
Staff Profile Users

105 Days Average  
with Staff Profiles

Multiple analyses (Wilcoxon,  
Mann-Whitney, ANCOVA)  
confirmed **significant  
improvements** in the  
experimental group.

**Learner outcomes improved** by  
an average of **37%** increase in  
mastered targets per session  
hour, translating to **~10 more  
targets/month** with consistent  
staff support.

# Bridging the Training Gap

How Staff Profiles Drive Measurable Outcomes

## Why It Matters

### Without strong training:

- Lower treatment fidelity
- Delayed skill acquisition
- Higher staff turnover

### With staff profiles:

- More mastered skills
- Higher session efficiency
- Real-world, scalable solutions

## What's Included?

Our training package, delivered via **Hi Rasmus staff profiles**, comes with:

250+ pre-built programs

Real-time feedback & performance graphs

Embedded supervision tools

Custom training paths

Integrated staff & client data collection

Staff training & session fidelity  
without extra admin
